My passion in life is to build solutions to problems. I love the process of taking an idea and organizing resources around it in a way that allows for something new, unique, and interesting to be created. This passion presents itself in my various interests and experiences such as art, media production, software engineering, design, sales, and marketing.

Currently I am the Founder and Head of Growth at Podsimply, a Podcast Marketing agency I created to help experts drive business results via podcasting. I am also the host of Tiny Leaps, Big Changes, a podcast, book, and community to help individuals change their day-to-day behavior

Are you an expert that needs more leads and opportunities? After reaching 4.2 million downloads for my own podcast, I created Podsimply, a Marketing Agency that helps experts drive business results via podcasting.

We typically help experts before or right after they launch their podcasts and help them reach the right audience to generate qualified leads. Here are some previous success stories we're proud to share...

After their 5 months of failed traction, we helped the Fab Fertile podcast get new clients, receive 50 leads, and grow their audience by over 3500 a month.

"Working with the Podsimply team has been a game changer for my business. In a short period of time I have secured more clients and consistently remain in the top 5 for my podcast category. They has a simple no nonsense strategy that gets results."
– Sarah C.

"The team knows so much about podcasting and promotion strategy. After 2 years of very slow podcast growth, we were feeling quite frustrated and confused. Only a couple of weeks after following their guidance, we doubled our podcast downloads and grew our email list significantly. Working with them will transform your business. Do it!"
– Kimi M. & Pua A.

"These guys know podcasting. When I came to them with an idea for a show they immediately ran with it and made it as simple as possible to execute. I'm excited to continue working with them."
– Ryan H.

If you need help with podcasting in order to achieve your business goals, please send me a message or get in touch using the links below.
In my free time I host Tiny Leaps, Big Changes, a podcast, book, and community to help individuals change their day-to-day behavior.

Ansel

2017 – Present · 2 yrs

At Ansel, we focus on helping companies, nonprofits, or individuals scale their social or environmental impact through the use of digital channels. We cover paid advertisement, influencer marketing, email marketing, search engine optimization, social media management, and website development.

As Head of Advertising, I manage all paid advertisement strategy and execution for my clients so you and your team can focus on what you do best, while knowing you’re monetizing profitably and predictably.

Here are some highlights from the past year:

- Cut the CPA of Drink Jin+Ja on their paid advertisement channels by 50% catalyzing their growth to a 20M valuation.
- Tripled the ROAS of United By Blue in just 6 weeks scaling revenue over 7-figures in November and December, leading to their next round of investment.
- Saved RuckPack from insolvency by moving over 100,000 units of stock after stagnated sales post-ABC's Shark Tank. This also led to their next round of investment.
